environment.

We prioritize your health and the environment. Our clean manufacturing process produces low levels of CO₂. Additionally, installing our film minimizes the waste generally produced by traditional renovation methods by allowing you to give a new life to existing structures. This minimizes the volume of waste sent to landfills, contributing to a more sustainable approach to renovation, and reducing carbon footprint.

safety.

Our products exceed all safety requirements. They are subjected to vigorous quality tests at an independent laboratory to ensure optimal performance. All our products are free of any hazardous chemicals, including harmful heavy metals and Volatile Organic Compounds (VOCs). In addition to rendering your surfaces easy to clean, most of our films exhibit antibacterial and anti-mold properties.
